OBLIQUE collection\_2021

1-  
3

AGAPE is a handcrafted sideboard with supporting structure, shelves and drawers in 19 mm thick bilaminated poplar plywood while the covering on three sides, top + lateral sides, is in 20 mm natural marble or in Canaletto walnut blockboard, both partially recessed in the structure in order to have a reduced perception of the thickness.

The fronts of the hinged doors and the drawers are made with 19 mm thick Tanganyika walnut blockboard, lacquered white with a matt finish.

The opening of the drawers is entrusted to metal guides with total extraction with a soft control system as well as for the hinges of the hinged doors.

The supports are in box-shaped satin steel with a square section size 40 x 40 mm.

The painting of the wooden cladding is done with water polymers.

Since these are handcrafted products, the images of the materials used are indicative, photos of the materials actually selected will be provided at the time of the order.
