APUANIA collection_2021

1-
3

ESIODO is a monolithic countertop washbasin obtained from the three-dimensional modeling of marble blocks from the Apuan area with the aid of CNC machinery and finishing done by hand by local workers. It is supplied with a 'click clack' type drain without overflow, with a stone cover of the same type and embossed logo. The size is 450 x 450 x 160 mm (H). Customization is possible upon request.

Since these are handcrafted products, the images of the materials used are indicative, photos of the materials actually selected will be provided at the time of the order.
