SIKANIA collection_2021

1-
3

TIRTEO is a monolithic countertop washbasin obtained from the three-dimensional modeling of solid Sicilian stones with the aid of CNC machinery and handcrafted finishing by local workers.

It is supplied with a 'click clack' type drain without overflow, with a stone cover of the same type and embossed logo.

The size is 450 mm in diameter and 160 mm in height. Customization is possible on request.

Since these are handcrafted products, the images of the materials used are indicative, photos of the materials actually selected will be provided at the time of the order.
